Great! Thanks for the feedback!!!

Yes, we can include a few words about the cost estimates. And Yes costs will be included in the table.

Subject: RE: Draft Portland Harbor Proposed Plan

Is there any plan to add cost estimates to table?

Also – I think we should perhaps make a statement the nature of the cost estimates at the beginning of the remedial alternative section (page 32) more generally – the plus 50% / minus 30% notion - Otherwise if one just focuses on those parts of the text, one could walk away with a false sense of precision. Thinking just a sentence or 2.

Otherwise, I like where it is headed

Subject: Draft Portland Harbor Proposed Plan

Here is the current draft of the Proposed Plan and a streamlined version of FS Table 4.3-1 that we plan to use for the PP.

- The first 32 pages of the PP have been extensively reviewed. Silvina and I will work with Kristine and Elizabeth to do the final review/editing of those pages tomorrow.
- The rest of the document (Summary of Remedial Alternatives, Evaluation of Alternatives, Preferred Alternative, Rationale for Preferred Alternative) has been updated based on Sections 3 and 4 of the FS, but it is still draft. The draft attached is not ready for full review, but is just to show you where the draft is headed. We will send a more final draft for the full team review on Thursday this week.

Please let me know if you have any questions.

Thanks,

Annie
